SOLUTIONS

QuickChange®

Self-service coin deposit center

"QuickChange is easy to use and easy to maintain. It's another service that we can provide to our clients to enhance the value of banking here."

Financial Institution President and CEO

flexibleefficiency

The QuickChange self-service deposit center was strategically designed with your institution in mind. The result is a truly unique self-service coin deposit center that will positively impact every part of your operations.

Expand your potential client base

Bilingual instructions on a large easy-to-read display make QuickChange accessible to a larger demographic. The simple "A" and "B" button navigation increases ease of use. The ADA compliant design ensures easy accessibility to clients with physical disabilities, while the child-friendly features provide a fun and educational opportunity for even your youngest customers.

Marketing and brand-building opportunities

Talaris understands that having equipment in your lobby is not enough. That's why each QuickChange comes with a marketing success kit. Included is a sample marketing plan complete with creative applications, such as transaction stuffers, posters and advertisements.

Protect your investment and your customers

The QuickChange coin conveyor safety lock prevents accidental contact with moving parts and keeps customers safe from harm. The inclined coin conveyor design protects the internal mechanisms of the unit from large debris and liquids.

Reduce staff intervention

QuickChange's coin collection options and unique alert systems ensure that continuous processing is maximized and out-of-service risk is minimized. With little intervention needed, your staff can stay focused on serving clients.

Flexible coin capture options

Two versions of QuickChange are available to meet your needs and fit within your current processes. Coins may be captured into bags or bins depending upon the preference of your institution.

HOW IT WORKS

QuickChange is user-friendly and intuitive for your clients to use in just three easy steps.

Step 1 Press language choice

Step 2 Pour coins into tray

Step 3 Take receipt to teller to deposit or exchange for cash

COIN CAPTURE OPTIONS

Bin capture

The QuickChange bin sets a new standard for design excellence and functionality. It is designed to meet the needs of your financial institution and your armored carrier. Each bin is strong, durable and can be easily moved with minimal effort.

Bag capture

To ensure that up-time will be maximized, the QuickChange bag version holds twelve "Fed Ready" bags. Double and triple bags are used for the most frequently received coin denominations. The optional QuickChange transfer cart can assist with transporting full bags to a secure location.

The QuickChange has proven itself to be a valuable part of the branch by allowing you to provide added value to your customers.

The Talaris Commitment

Talaris is a World Expert in cash management. Across the globe 2,300 personnel, with over 130 business partners deliver technology and solutions that provide security, productivity and innovation to our customers.

The company is committed to the highest ethical standards and compliance with legislation and to be a fair employer wherever we operate. As a responsible organization we maintain a disciplined approach to our corporate governance and operate to the optimum professional standards in all aspects of our business.

Talaris will always seek to provide a safe and productive work environment where all employees can grow and be challenged. Wherever we operate our objective is to contribute actively to the community and the local environment. An intrinsic part of our business philosophy across our product and service offerings is to be consistently environmentally responsible and to continue to improve our performance across all environmental issues wherever possible.
